FINANCIAL STATEMENTS**

**FOR THE PERIOD ENDED SEPTEMBER 30, 2025**

## **DIRECTORS' REPORT**

### **FOR THE NINE-MONTH PERIOD ENDED SEPTEMBER 30, 2025**

On behalf of the Board of Directors, we are pleased to present the Condensed Interim Financial Statements of Pak Brunei Investment Company Limited ("the Company") for the Nine-Month Period ended September 30, 2025. These statements have been prepared in compliance with the requirements of BPRD Circular No. 02 dated February 09, 2023 and International Accounting Standard (IAS) 34, 'Interim Financial Reporting'.

### **ECONOMIC OUTLOOK**

The global economy remains resilient but is showing signs of a slowdown. The IMF projects global real GDP growth at 3.2 percent in 2025, down from 2024, and further easing to 3.1 percent in 2026. This deceleration reflects ongoing geopolitical tensions, rising protectionism, tight financial conditions, and continued global supply chain disruptions exacerbated by U.S. tariffs.

In Pakistan, economic activity during the third quarter of 2025 was significantly affected by catastrophic floods, which disrupted agricultural production and heightened inflationary pressures. In light of these challenges, the IMF revised Pakistan's GDP growth forecast downward to 3.7 percent from the earlier target of 4.2 percent. Responding to this uncertain macroeconomic environment, the State Bank of Pakistan adopted a cautious approach, maintaining the policy rate at 11 percent throughout the quarter.

Inflation saw an uptick during the month, driven primarily by a rebound in food prices after the floods. The headline CPI accelerated to 5.6% YoY from 3.0% in August, as food prices rose by 5.5% MoM. Meanwhile, core inflation stayed anchored at 7.3% YoY, pointing to contained demand-side pressures. For FY26, inflation is expected to average 6.3%, compared with 4.6% in the previous fiscal year.

On the external front, the trade deficit expanded by 9.4 percent year-on-year to USD 8.5 billion. This was driven by 8.8 percent increase in imports, which rose to USD 18.5 billion, while exports increased by 8.2 percent to USD 10.1 billion. Despite this widening gap, workers' remittances offered some relief, increasing by 8.4 percent year-on-year to USD 9.5 billion. These inflows played a key role in supporting the current account and contributed to a modest appreciation of the Pakistani rupee, which strengthened by nearly 1 percent from its June 2025 level.

The Stock Market continued its positive trend, with KSE-100 index reaching all time high of 165,494 points on September 30, 2025. The surge came on the back of economic stability coupled with liquidity shift from other asset classes, particularly fixed income.

### 24.3 Other contingent liabilities

**24.3.1** In 2009, Burj Bank Limited (formerly Dawood Islamic Bank Limited) filed a legal suit amounting to Rs. 200 million for damages against the Company for alleged non-performance of underwriting commitment in respect of issue of shares at a premium. The legal advisors of the Company are of the opinion that the Company has a strong case and that the matter will most likely be decided in favor of the Company.

**24.3.2** The returns of income of the Company from tax years 2008 to 2024 had been filed with the tax authorities. From tax year 2008 up to tax year 2020, these returns have been revised and additional tax demands have been raised of which Rs. 782.07 million are outstanding as at September 30, 2025. The matters which have been raised in these demands mainly included allocation of common expenses to dividend income, taxation of discount income, additions on account of concessional loans to employees and deletion of the charge pertaining to the Workers' Welfare Fund. The Company is contesting these demands and appeals have been filed by the Company against the same which are pending adjudication at various legal and appellate forums. The Company has made partial payments against some of these demands which are being shown as refundable from tax authorities. The management is confident that the matters will eventually be decided in favor of the Company and that the Company will be able to adjust amounts in respect of matters decided against the Company (if any) against the tax refunds currently being claimed by it.

| <b>31.1</b> | As a consequence of the 18th amendment to the Constitution of Pakistan, the Sindh Workers' Welfare Fund Act, 2014 (SWWF Act) had been passed by the Government of Sindh in May 2015 as a result of which every industrial establishment located in the Province of Sindh, the total income of which in any accounting year is not less than Rs .0.50 million, is required to pay Sindh Workers' Welfare Fund (SWWF) in respect of that year a sum equal to two percent of such income. The matter relating to payment of SWWF is pending before the Sindh High Court and an interim stay order has been granted to the Company. However, as a matter of prudence, the management has maintained a provision for SWWF in the unconsolidated financial statements amounting to Rs 246.225 million which includes a provision of Rs. 47.533 million for the current period. The Sindh High Court decision on January 25, 2025 reiterates that the matter to be disposed of as per the Council of Common Interests' decision on Agenda Item 14 bearing no CCI 14/1/2019 dated 23 / 12 / 2019 which states this being trans-provincial and interprovincial matter should remain with the Federal government. |                                       |                                        |

## 36 FAIR VALUE MEASUREMENT

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

### 36.1 Fair value of financial assets

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- **Level 1:** Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities;
- **Level 2:** Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- **Level 3:** Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).
